LED LANTERN

Product Features

| | |
|---------------------|---|
| • Power (max) | : 1W |
| • Light source | : 21pcs high bright LED |
| • Discharge time | : 6hrs at full glow 10hrs at half glow |
| • Color temperature | : 6500K |
| • Charging time | : 3 hours |
| • Boost cover | : IP grade, IPX4 splash |
| • Indication | : Full charge indicator |
| • Switch | : On/Off glow and full glow |
| • Battery | : Lead-acid battery (6V 4.5A) |
| • Power Bank | : 5V USB output for mobile phone charger |

Main Features

- Battery Management System:**
Make the device cutoff at 90% discharge and doesn't allow the battery over charge after 100% . Hence it gives longer life for battery.
- IP4 Grade Housing :**
Can withstand up to 100degree temperature in conformity with IEC standard.
- High quality LED:**
Using LM30 certified LED, which lasts 50,000hours with 30% light output depreciation, and Photo biological test approved, which is better for human eye.
- RoHS:**
Comply with no Hazardous substance.
